## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 10-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not adequately disclose an expandable member positioned at the distal end of the housing.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Claims 1-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Cosman et al. '922. Cosman et al. disclose a method of controlling an ablation volume depth comprising providing a tissue surface treatment apparatus including a housing (137) having a tissue contacting surface (figure 10), an advancement device (140); positioning the tissue contact surface; advancing at least one electrode; delivering ablative energy; creating an ablation volume and minimizing injury.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3739

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8, 9 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cosman et al. further in view of Behl et al. Cosman et al. teach all of the limitations of the claims except conforming the contact surface and immobilizing tissue. Behl et al. disclose a similar method and apparatus for its practice. Behl et al. teach that it is old and well known in the art to provide a conforming contact surface thereby immobilizing tissue (col. 3 lines 31-41) to provide a uniform compressive force against tissue and inhibit blood flow to prevent energy losses. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to conform the contact surface and immobilize tissue to in the Cosman et al. method to prevent energy losses.

### ***Response to Arguments***

Applicant's arguments filed 4/9/04 have been fully considered but they are not persuasive. Applicant argues that Cosman et al. fail to teach providing an apparatus comprising an advancement device, where the advancement device is configured to selectively advance individual electrodes of the plurality of electrodes from the housing interior. Cosman et al. address this argument in col. 15 lines 42-44 where various mechanisms that are capable of selectively advancing individual electrodes are disclosed.

### ***Conclusion***

Art Unit: 3739

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
